

Immigration Medical Examination

NEW ZEALAND

Thank you for your Immigration Medical inquiry at Hatmed. We aim to make the process an efficient and positive experience.

What To Bring To Your Appointment

- A valid Passport; the medical cannot proceed without this
- Spectacles or contact lenses if you wear them
- Copies of letters from your GP or Specialist if you are currently on any medication, or have any significant medical history

Note:

- *New Zealand Immigration Medicals are now processed online through the eMedical system as 'Upfront Medicals'. This means that your health case will be created in eMedical at the clinic on the day of your appointment.*
- *Each applicant will be presented with an eMedical Information Sheet before leaving the clinic. This enables the applicant to lodge the visa application and will contain the applicant's unique medical identifier (NZER)*

What To Expect During The Examination

- All applicants will have a full medical examination, including a urine test if aged 5 years and above.
- The medical itself involves a physical examination, where the applicant will undress to underwear whilst wearing a gown.
- If you would like a chaperone present during the medical examination, please do not hesitate to request one.
- All applicants aged 11 years and above will need a chest X-ray.
- All applicants (General Medical Certificate) aged 15 years and above will also need blood tests for HIV status, syphilis, hepatitis B and C, kidney function test, full blood count and diabetes test (HbA1c).
- There is no need to fast for the blood tests but please be well hydrated.

Price List

- Adult full medical certificate (INZ 1007) (medical, chest X-Ray, blood tests as required) R3 930.00
- Child aged 11-14 years (Medical & Chest X-ray) R2 450.00
