

Immigration Medical Examination

CANADA

Thank you for your Immigration Medical inquiry at Hatmed. We aim to make the process an efficient and positive experience.

What To Bring To Your Appointment

- A valid Passport; the medical cannot proceed without this
- Your Medical Report – Client Biodata and Summary Form
- Spectacles or contact lenses if you wear them
- Copies of GP and/or Specialist reports, if available, for any significant medical conditions

Note:

- *Upfront applicants (UFME) who have not yet applied for their visas only need to bring a valid passport.*
- *As Canadian Immigration medicals are processed through the online eMedical system there is no need to bring photographs*

What To Expect During The Examination

- All applicants will undergo a full medical examination, including a urine test for anyone aged 5 years and above.
- The medical involves a physical examination, where the applicant will undress to underwear whilst wearing a gown.
- If you require a chaperone during the medical examination, ideally please let us know in advance. You will need to undress down to your underclothes.
- Applicants aged 11 years and above will require a chest X-ray.
- Visa applicants aged 15 years and above will require blood tests for HIV and syphilis status and kidney function.
- There is no need to fast for the blood tests but please be well hydrated.

Price List

- Adult (medical, chest X-Ray, HIV and syphilis and kidney function tests) R3 081.00
- Child aged 11-14 years (Medical & Chest X-ray) R2 500.00
- Child aged under 11 years (Medical only) R1 500.00
